POINTING DOG DEMO

COURTESY OF THE BLUENOSE
CHAPTER OF NAVHDA

MAIN ARENA SHOW TIMES

Saturday, March 14
7:00 pm - 8:00pm

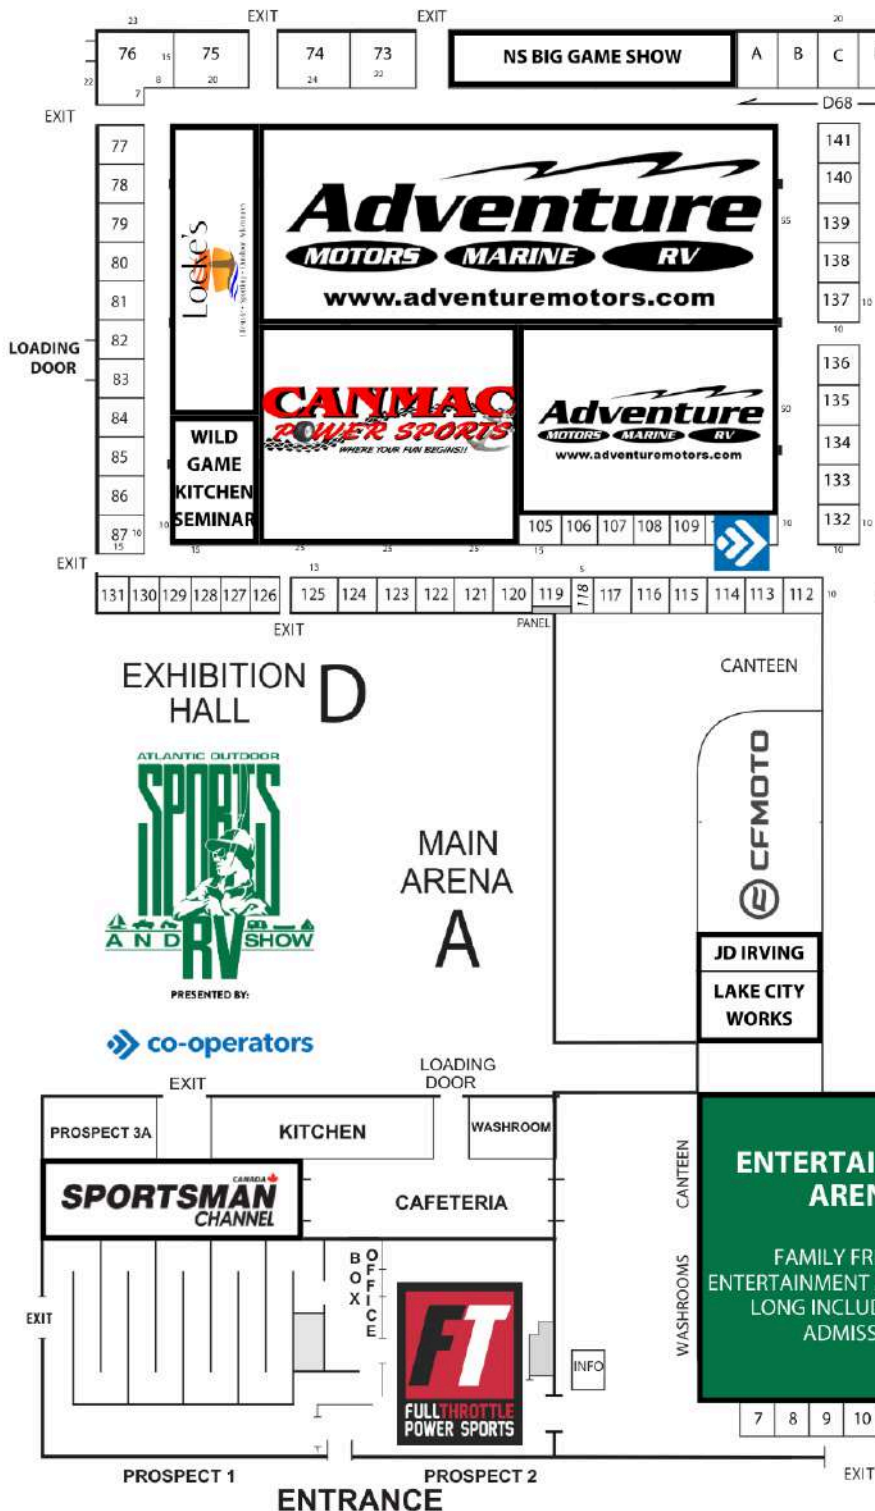

Members of the Bluenose chapter of the North American Versatile Hunting Dog Association are happy to join the Atlantic Outdoor Sports & RV Show in 2026 to demonstrate the usefulness of a trained hunting dog. The pointing and versatile breeds work with their handlers and owners to hunt upland game as well as waterfowl. They also work in recovery of other game.

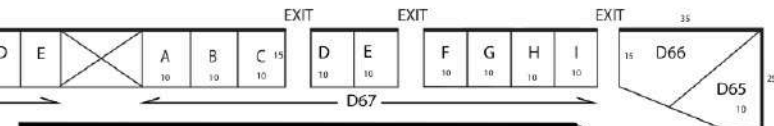

These dogs are trained and tested in their cooperation, use of nose, pointing ability, obedience, steadiness, tracking and game recovery. The versatile abilities of these dogs also enables them to be genuine partners in conservation.

Members come together through the spring and summer to train their dogs during group training days. The comradery of the training days leads to lifelong friendships between members and the training connections go far between the scheduled training days.

Dogs and owners from the club, not only test in the NAVHDA test stream, but can also be found in CKC pointing events, American Field trials, other dog sports, out hunting during hunting season, guiding, and as family companions.

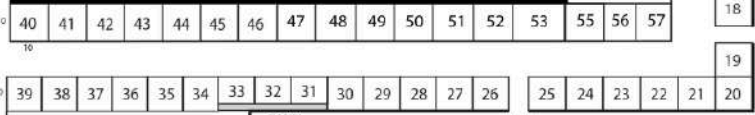

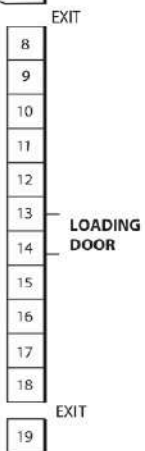

While training is focused on the pointing and versatile breeds, the club welcomes members from anyone with an interest in training a hunting dog.
